# Energy and Environment Fair 2006

Conference • Exhibition • Dinner

**Green Energy & Waste Management**  
New Projects • New Business  
New Clients • New Markets

**Venue:**  
Riverside Stadium Middlesbrough

**Date:**  
21 & 22 September 2006

**Key Speakers include:**  
**Professor Stephen L Willetts** – The Willetts Partnership  
**Dr Simon Goon** – One NorthEast  
**Dr Dermot Roddy** – Renew Tees Valley

“If you are a renewable energy or waste management business, thinking about starting a business within that sector, need to reduce energy costs or manage waste more cost effectively

If you need to understand more about compliance with current legislation, learn more about planning consents, grant and other funding for environmental industries ”

**...THEN THIS EVENT IS A MUST FOR YOUR BUSINESS**

# Foreword

The Tees Valley is a hub for renewable energy sector activity within the North East region. It is our aim to promote the Tees Valley as a UK centre for renewable energy and waste management technologies. Over the last two years, **Renew Tees Valley** and our partners have established networks, clusters, supply chains and partnerships to support the creation of new business, and to help existing local businesses to develop/diversify into new markets in renewable energy and recycling.

One of the key aims for **Renew Tees Valley** is to make it easy for companies that are interested in renewable energy or recycling to develop their businesses here. Another is to ensure that across the Tees Valley we have an integrated approach to sustainable development and waste management.

We are delighted therefore to host, along with partners, the 2006 Energy and Environment Fair, which includes an exhibition, a diverse programme of seminars, workshops, surgeries and presentations as well as the inaugural 'Energy and Environment Industry Dinner and Awards'. I look forward to seeing you on 21 September.

*Deirdre Roddy*  
**Chief Executive**  
**Renew Tees Valley**

### This event is for Businesses that:

- Are a renewable energy or waste management business
- Are interested in establishing a business within the renewables or waste management sectors
- Need to deal more cost effectively with waste management
- Want to learn about new ways to deal with waste
- Need to reduce energy costs
- Are struggling to comply with and understand environmental legislation
- Are attempting to realise environmental changes within their organisation
- Are suppliers to the renewable energy or waste management sector

## Thursday 21 September

Conference Registration 08.15      Conference Close 16.00

### Key Note Speakers include:

#### Dr Simon Goon

*Head of Business Development and International Relations One NorthEast.*

Dr Goon has a PhD in chemistry and prior to joining the Regional Development Agency One NorthEast in March 2005 worked for Rhodia Pharma Solutions as a Business Manager. Simon heads up the Business Development and International Relations team within The Agency, which covers, inward investment, sectors and strategic account management. Main areas of activity include bringing in new investment from overseas, supporting existing businesses to grow and diversify and encouraging new business start ups. His department covers the nine key regional sectors, energy lies at the heart of this activity.

#### Professor Stephen L Willetts BSc, PhD

*Member of the Institute of Wastes Management and  
 Member of the Chartered Institution of Water & Environmental Management*

Professor Stephen Willetts is founder and principal of the Willetts Partnership established in 1995. Areas of expertise include waste management, particularly hazardous waste, environmental management and audit, legislative compliance assessments as well as waste treatment technology and systems appraisal.

#### Dr Dermot Roddy

*Chief Executive Renew Tees Valley*

Dr Dermot Roddy comes originally from Northern Ireland where he was educated at Queen's University, Belfast. Prior to becoming Chief Executive of Renew Tees Valley in 2003, Dermot worked in the chemical industry from 1985 to 2002, based predominantly on Teesside, in a variety of local and international roles in operations, engineering and technology with ICI and others. These roles embraced major new production facilities and expansions, new product development, plant operation and maintenance, research and development and projects. He is also a director of Middlesbrough Environment City and a director of the UK Hydrogen Association.

### Case Studies:

1. Use It – Don't Lose It – New ways of using rather than disposing of waste.
2. Wind Bags or Money Bags – Using wind power to reduce energy costs.
3. Spot The Difference – A case study about planning and vision.
